Definitions of formats of play:

Four Ball: Four Ball is a form of play (in either match play or stroke play) involving partners where you and your partner compete together as a side, with each of you playing your own ball, and your side's score for a hole is the lower score of the two of you on that hole

Scramble: A Scramble format involves four golfers all on the same team playing together. Each team member hits a tee shot on each hole. The team then collectively decides which of the four balls is in the best position to play next. This procedure is repeated for each shot until a ball is holed.

Modified Alternate (Modified Foursome): Partners will alternate hitting the same ball on a hole, but both players rather than one will tee off. The player who didn't hit the best shot off the tee will play the second shot, and the teams will continue to alternate shots until the ball is holed.

Shambles: A "shamble" format is a form of play where a team of golfers selects the one best drive among them after teeing off, then all four play their own golf balls from that position into the hole. Either one or 2 best balls will count towards the team score
